

SUPER CURRICULUM ACTIVITIES

year5

ENGLISH

Why super curriculum matters in English

Super curriculum in English helps you go beyond the classroom – it's your chance to explore stories, plays, poems, and authors that aren't in your schoolbooks. By reading more widely, writing in new styles, and discovering how words can be powerful, you'll grow into a more confident reader, writer, and speaker. It matters in because this is when you start moving from learning the basics of English to using language to think deeply, share ideas, and express who you are.

Reading

1. Read *The Secret Garden* (classic children's novel) –
2. Explore Greek myths retold for children –
3. Read a short children's story collection –
4. Discover Shakespeare stories for KS2 (BBC Bitesize) –
5. Browse the Oxford Owl free eBook library –

Writing

1. Daily picture prompt (Pobble 365) –
2. Create a poem with the Poetry Generator –
3. Try Storybird to illustrate and publish your own story –
4. Practise grammar and sentence writing with Quill –
5. Choose a 10-minute challenge from Authorfy –

Listening

1. Listen to *The Snow Queen* audiobook –
2. Hear real children's stories on BBC School Radio –
3. Follow world events in simple English at NewsForKids –
4. Learn history stories in podcast form (Bedtime History) –
5. Audiobook: *The Wind in the Willows* –

Watching

1. Figurative language in songs (BBC Bitesize clip) –
2. TED-Ed: Why should you read Shakespeare? –
3. British Council story video: *The Hungry Dragon* –
<https://learnenglishkids.britishcouncil.org/video-zone/the-hungry-dragon>
4. Grammar introduction videos (Khan Academy) –
5. Family storytelling videos (National Literacy Trust) –

MATHEMATICS

Why super curriculum matters in Mathematics

Supercurriculum activities in Mathematics help students stretch beyond the classroom, seeing maths not just as numbers but as a creative tool for solving real-world problems. They encourage curiosity, logical reasoning, and resilience, giving pupils confidence in using mathematics in everyday life.

Reading

1. Read “A Brief Illustrated History of Maths” (short introduction) –
2. Explore maths in real life with “Math in Daily Life” (Annenberg) –
3. Read biographies of famous mathematicians –
4. Look at puzzles and problems for kids –
5. Explore how maths explains nature in “The Golden Ratio” –

Writing

1. Keep a “Maths Diary”: write how you used maths today (shopping, cooking, time).
2. Write a step-by-step solution to a tricky maths problem and explain it as if teaching a friend.
3. Create your own number riddle or word problem for classmates.
4. Write a short paragraph about how Fibonacci numbers appear in plants –
5. Reflect on a famous mathematician’s discovery (choose from)

Listening

1. Listen to *Maths for Kids* podcast episodes –
2. Numberphile audio stories (via podcast) –
3. Listen to times tables songs –
4. Listen to maths mysteries explained (Brains On! podcast) –
5. Explore Khan Academy arithmetic audio explanations –

Watching

1. Watch “Why do we need maths?” (BBC Bitesize) –
2. Khan Academy video: Introduction to fractions –
3. Watch a Numberphile video about prime numbers –
4. TED-Ed video: “The Secret Maths Behind Alice in Wonderland” –
5. Visualise maths in nature: “The Fibonacci Sequence in Nature” –

SCIENCE

Why Supercurriculum Matters in Science

Supercurriculum activities in Science encourage students to explore the world with curiosity, connecting classroom topics to everyday life. They help pupils ask questions, think like scientists, and develop problem-solving skills while inspiring a love of discovery.

Reading

1. Read “Everyday Science Explained” (BBC Bitesize KS2) –
2. Explore “How Stuff Works – Science” –
3. Read kid-friendly science articles on NASA’s Space Place –
4. Explore National Geographic Kids –
5. Discover “The Science Behind the Weather” –

Writing

1. Keep a “Science Diary” describing one experiment you try at home.
2. Write a report about your favourite planet after exploring
3. Design a poster explaining the water cycle –
4. Write three “What if...?” questions (e.g., *What if plants could talk?*) and explain the science behind them.
5. Summarise a National Geographic Kids article in your own words –

Listening

1. Listen to “Brains On! Science Podcast for Kids” –
2. Tumble Science Podcast for Kids –
3. BBC Teach Science audio clips –
4. Listen to NASA’s Curious Universe podcast –

5. Listen to episodes from Wow in the World (NPR Kids Science) –

Watching

1. BBC Bitesize KS2 Science videos –
2. SciShow Kids YouTube Channel –
3. National Geographic Kids videos –
4. NASA Kids science animations –
5. TED-Ed Science videos for children –

ART & DESIGN

Why Supercurriculum Matters in Art & Design

Supercurriculum activities in Art & Design give pupils the chance to explore creativity beyond the classroom, experimenting with new techniques, learning about artists, and connecting art with culture and history. These activities develop imagination, problem-solving, and self-expression.

Reading

1. Explore artists and movements in Tate Kids –
2. Read about famous paintings and their stories –
3. National Gallery kids' resources –
4. "The Art Story" – simple guides to artists –
5. Learn about colour theory –

Writing

1. Keep an "Art Journal" describing your drawings and ideas.
2. Write a short biography of your favourite artist after exploring
3. Write a review of a painting from the National Gallery –
4. Create your own set of drawing instructions for a classmate.
5. Write a poem inspired by a famous artwork.

Listening

1. Listen to "Art Detective" podcast episodes –
2. BBC "The Art of..." audio clips –
3. "Kids Ask Authors" (inspiration from illustrators) –
<https://kidsaskauthors.com/podcast/>

4. National Gallery audio resources –
5. “ArtCurious” podcast for stories behind the art –
<https://www.artcuriouspodcast.com/>

Watching

1. Tate Kids art tutorials – <https://www.tate.org.uk/kids/make>
2. National Gallery art lessons –
3. BBC Bitesize KS2 Art & Design –
4. MoMA Learning videos –
5. Art for Kids Hub (step-by-step drawing) –

COMPUTING (ICT)

Why Supercurriculum Matters in Computing (ICT)

Supercurriculum activities in Computing help pupils move beyond basic computer use, giving them confidence to code, design, and think critically about technology. They nurture problem-solving, creativity, and digital citizenship, preparing children for a tech-driven world.

Reading

1. Learn about the history of computers –
2. Read child-friendly coding guides –
3. BBC Bitesize KS2 Computing –
4. Explore “How the Internet Works” –
5. Discover stories of famous computer scientists –

Writing

1. Keep a “Tech Diary” explaining how you used technology today.
2. Write your own algorithm for making a sandwich (step-by-step instructions).
3. Research and write a short report about Ada Lovelace or Alan Turing –
4. Design a comic strip explaining why online safety matters –
5. Write instructions for a Scratch project you create –

Listening

1. Listen to “CodeNewbie Podcast” stories from programmers –
2. “KidsLab Podcast” (STEM, coding, robotics) –
3. BBC Sounds “Make It Digital” episodes –
<https://www.bbc.co.uk/sounds/brand/po2pc9xn>

4. Listen to “Tech Talk” for children – kids
5. Crash Course Computer Science (audio via YouTube) –

Watching

1. Scratch tutorials for kids –
2. BBC Bitesize videos on Computing –
<https://www.bbc.co.uk/bitesize/subjects/zvnrq6f>
3. Hour of Code activities – <https://hourofcode.com/uk/learn>
4. Crash Course Kids: Computer Science –
5. CS Unplugged activities (computing without a computer) –

DESIGN & TECHNOLOGY

Why Supercurriculum Matters in DT

Supercurriculum in DT lets pupils think like real designers—spotting problems, sketching ideas, testing prototypes, and improving them. It grows creativity, resilience, teamwork, and practical problem-solving that connects classroom learning to the real world.

Reading

1. Read what DT is and explore KS2 topics on BBC Bitesize –
2. Explore the Design Museum’s kid-friendly articles and activities –
3. Learn the engineering design process at NASA JPL Education –
4. Discover structures and materials (DK Find Out) –
5. Read about simple machines and mechanisms (ExplainThatStuff) –

Writing

1. Write a simple **design brief** for a classroom organiser after reading: What is a design brief? –
2. Create **step-by-step instructions** for building a paper prototype (use this guide to good instructions) –
3. Keep a **prototype diary** (plan → build → test → improve) using NASA’s process –
4. Write a **materials choice** paragraph after reading about properties –
5. Review a Dyson Challenge Card you attempt: what worked, what to change next time –

Listening

1. Tumble: episodes on engineering challenges for kids –
2. Brains On!: episodes about inventions and how things work –
<https://www.brainson.org/>
3. Wow in the World: design/engineering themed episodes –
4. Engineering Matters (select child-friendly stories with an adult) –
5. KidsLab Podcast (STEM, coding, making) –

Watching

1. PBS Kids Design Squad Global: hands-on build videos –
2. BBC Bitesize DT video clips for KS2 –
<https://www.bbc.co.uk/bitesize/subjects/zb9d7ty>
3. Dyson Foundation: quick engineering challenges –
<https://www.jamesdysonfoundation.co.uk/resources/challenge-cards.html>
4. Crash Course Kids: engineering series playlist –
5. Exploratorium Tinkering Studio: make-and-tinker ideas –

GEOGRAPHY

Why Supercurriculum Matters in Geography

Supercurriculum activities in Geography encourage pupils to think about the world beyond their classroom. They build curiosity about people, places, and environments, helping children understand global connections, cultures, and how humans interact with the natural world.

Reading

1. Explore BBC Bitesize KS2 Geography topics –
2. National Geographic Kids – articles about countries and animals –
3. Learn about volcanoes and earthquakes (DK Find Out) –
4. Discover climate change explained for kids –
5. Read “Geography for Kids” overview –

Writing

1. Write a travel diary entry about a country you’ve researched (start here:).
2. Create a fact sheet about a river or mountain from BBC Bitesize –
3. Write a persuasive piece about protecting rainforests after reading
4. Make your own weather report script using resources here –
5. Compare two countries and write their similarities/differences with info from

Listening

1. Listen to “Map Men” podcast for fun geography facts (with adult guidance) –
2. “Brains On!” podcast episodes about the Earth – <https://www.brainson.org/>
3. “Tumble” science podcast: geography/earth episodes –
4. National Geographic Kids YouTube audio stories –

5. BBC Earth Kids “Planet Earth” soundscapes –
<https://www.bbcearth.com/kids>

Watching

1. BBC Bitesize Geography video clips –
2. National Geographic Kids YouTube Channel –
3. Explore volcanoes and earthquakes (DK Find Out videos) –
4. Watch NASA Climate Kids animations –
5. BBC Earth Kids “Blue Planet” video clips –

HISTORY

Why Supercurriculum Matters in History

Supercurriculum activities in History help pupils explore the past beyond the classroom. They encourage curiosity about people and events, develop critical thinking, and help children see how history shapes the present and future.

Reading

1. BBC Bitesize KS2 History overview –
2. British Museum “Young Explorers” resources –
3. Kids Kiddle History articles –
4. National Geographic Kids – Ancient Civilisations –
5. DK Find Out: Romans, Vikings, Tudors and more –

Writing

1. Write a diary entry as if you lived in Ancient Egypt –
2. Create a fact file about a famous historical figure (use).
3. Write a newspaper article about the Great Fire of London –
4. Compare life in Ancient Greece with today –
5. Write three questions you would ask a Roman soldier after reading –

Listening

1. “You’re Dead To Me” (BBC Radio 4 – kids-friendly episodes) –
2. “History Storytime – For Kids” –
3. “Bedtime History” podcast –
4. “Horrible Histories” songs and audio (BBC) –
5. “The Past and The Curious” history podcast –

Watching

1. BBC Bitesize History KS2 clips –
2. Horrible Histories sketches (CBBC) –
<https://www.bbc.co.uk/cbbc/shows/horrible-histories>
3. National Geographic Kids history videos –
4. Timeline for Kids (YouTube history channel) –
5. TED-Ed History lessons –

ESL

Why Supercurriculum Matters in ESL

Supercurriculum activities in ESL give pupils extra opportunities to practise English outside the classroom. They help build confidence in reading, writing, listening, and speaking while exposing learners to authentic English in fun and meaningful ways.

Reading

1. Read graded short stories on British Council LearnEnglish Kids – <https://learnenglishkids.britishcouncil.org/short-stories>
2. Explore children's eBooks on Oxford Owl – <https://www.oxfordowl.co.uk/for-home/library-page>
3. Read simple news stories for ESL learners – <https://newsforkids.net>
4. Fun English reading passages on ESL Fast – <https://www.eslfast.com/kidsenglish/ke/ke/ke.htm>
5. Children's stories from Storyberries – <https://www.storyberries.com>

Writing

1. Use Writing Sparks prompts to practise English storytelling –
2. Write sentences about daily routines using ESL Fast examples –
3. Create a poem with Poetry4kids (focus on simple vocabulary) –
4. Write about your favourite animal using sentence frames from British Council Kids –
5. Practise grammar and writing with Quill –

Listening

1. Listen to ESL beginner stories with audio –
2. British Council Kids songs –
3. Storynory children's audiobooks –
4. BBC School Radio "Words and Pictures" – <https://www.bbc.co.uk/programmes/boorrd6t>
5. Fun songs for English learners (Super Simple Songs YouTube) –

Watching

1. Learn English through stories (British Council Kids video zone) –
2. BBC Bitesize KS2 English as a Second Language videos –
3. Watch ESL animated lessons on English Addict Kids YouTube –
4. Explore English Singing videos –
5. Watch “Peppa Pig” episodes in English (YouTube official channel) –

SPANISH

Why Supercurriculum Matters in Spanish

Supercurriculum activities in Spanish give pupils the chance to practise beyond the classroom, strengthening vocabulary, listening skills, and cultural awareness. They help children see Spanish as a living language used in stories, music, and everyday life.

Reading

1. Read simple Spanish stories with English support –
2. Explore BBC Bitesize KS2 Spanish –
3. Read bilingual children's stories –
4. Spanish short stories with audio (Duolingo Stories) –
5. Beginner Spanish vocabulary lists (Digital Dialects) –

Writing

1. Keep a "Spanish word diary" of 5 new words per week.
2. Write sentences about yourself using prompts – <https://www.spanish-games.net/spanishlessons>
3. Practise writing with Spanish spelling games –
4. Write a short letter in Spanish introducing your family (use BBC Bitesize help) –
5. Create your own Spanish-English mini picture dictionary.

Listening

1. Listen to Spanish children's songs –
2. Rockalingua free songs and chants – (some free access)
3. BBC Bitesize Spanish listening clips –
4. Spanish listening practice with kids' stories –

5. Coffee Break Spanish (introductory podcast) –

Watching

1. BBC Bitesize Spanish video clips –
<https://www.bbc.co.uk/bitesize/subjects/zxsvr82>
2. Rockalingua animated Spanish lessons – (some free)
3. Spanish For Kids – “Calico Spanish” YouTube channel –
4. Peppa Pig in Spanish (YouTube official) –
5. “Muzzy in Gondoland” clips (classic BBC Spanish resource) –

GREEK

Why Supercurriculum Matters in Greek

Supercurriculum activities in Greek help pupils deepen their understanding of language and culture. They connect the classroom with real-life Greek through stories, songs, and traditions, encouraging confidence in reading, writing, speaking, and listening.

Reading

1. Read Greek myths adapted for children –
2. Explore Greek folktales in English and Greek –
3. Online children's books in Greek (ICDL) –
<http://www.childrenslibrary.org/icdl/SimpleSearchCategory?ilang=Greek>
4. Easy Greek texts with vocabulary support –
5. Greek online newspaper for children (Ta Nea Twn Paidiwn) –

Writing

1. Keep a diary in Greek with 2–3 sentences each day.
2. Practise writing Greek alphabet and words using worksheets –
3. Write a short description of your family in Greek.
4. Translate a simple Greek myth into English and back.
5. Create your own illustrated Greek word book.

Listening

1. Listen to Greek fairy tales read aloud –
2. Children's Greek songs and rhymes –
3. Watch and listen to Greek learning stories –
4. Greek kids' audiobooks – (English + Greek versions)
5. Listen to simple dialogues in Greek –

Watching

1. Watch Greek cartoons (Zouzounia TV official) –
2. Learn Greek words with simple animations –
3. Greek language songs for kids –
4. “Μικρές Ιστορίες” (Little Stories) children’s programme –
5. Greek Mythology for kids (animated videos) –

MUSIC

Why Supercurriculum Matters in Music

Supercurriculum activities in Music help pupils develop creativity, rhythm, and expression. They deepen listening skills, encourage cultural appreciation, and connect classroom learning to the wider world of sounds and performance.

Music Supercurriculum

Reading

1. BBC Bitesize KS2 Music guides –
2. Classics for Kids composer profiles –
3. Read about world instruments (DK Find Out) –
<https://www.dkfindout.com/uk/music/>
4. Kids Music Corner: musical instruments explained –
5. Carnegie Hall Kids – history of music and instruments –

Writing

1. Write a short review of a favourite song, explaining why you like it.
2. Keep a listening diary: record feelings after hearing different styles of music.
3. Create lyrics for your own simple song.
4. Write a report about a famous composer after reading
5. Imagine and describe the instruments in an orchestra (help from).

Listening

1. Classics for Kids weekly radio shows –
2. BBC Ten Pieces audio clips –
3. Carnegie Hall Kids listening activities –
<https://www.carnegiehall.org/Education/Kids>
4. Storynory “Classical Music Stories” –

5. San Francisco Symphony Kids –
<https://www.sfsymphony.org/Discover/Learn/Kids>

Watching

1. BBC Bitesize Music video clips –
2. BBC Ten Pieces films –
3. San Francisco Symphony Kids interactive site –
4. Philharmonia Orchestra instrument videos –
5. Music theory lessons for beginners (YouTube: Michael New) –

PHYSICAL EDUCATION

Why Supercurriculum Matters in PE

Supercurriculum activities in PE encourage pupils to stay active beyond lessons, exploring fitness, teamwork, and healthy living. They support wellbeing, build resilience, and promote a lifelong love of movement and sport.

Physical Education (PE) Supercurriculum

Reading

1. BBC Bitesize “Health and Fitness” –
2. KidsHealth: Staying fit –
3. DK Find Out: Sports and the body –
4. Youth Sport Trust resources –
5. Healthy Eating explained (NHS Change4Life) –

Writing

1. Keep a **fitness journal**: write what exercise you do each day and how it made you feel.
2. Write rules for a new playground game you invent.
3. Research and write a fact file about your favourite sport using
4. Write about why hydration is important for athletes –
5. Make a weekly plan for balanced exercise, rest, and healthy food.

Listening

1. GoNoodle active songs and movement breaks –
2. BBC School Radio “Time to Move” –
3. KidsHealth audio on fitness –
4. Short guided yoga for kids (Yoga Kids Stories podcast) –
5. Brain Breaks music and movement (Just Dance Kids songs, YouTube) –

Watching

1. BBC Bitesize PE and Sport clips –
2. Cosmic Kids Yoga –
3. PE With Joe (Body Coach TV) –
4. Just Dance Kids videos –
5. GoNoodle guided movement activities –

RELIGIOUS EDUCATION

Why Supercurriculum Matters in RE

Supercurriculum activities in Religious Education help pupils explore different beliefs, traditions, and values. They encourage respect, empathy, and curiosity about the world's faiths, supporting pupils to develop tolerance and deeper cultural understanding.

Religious Education (RE) Supercurriculum

Reading

1. BBC Bitesize KS2 RE overview –
2. Learn about Christianity for kids –
3. DK Find Out: Religions of the world –
4. Kids Britannica: Islam explained –
5. Jewish Virtual Library – kids' resources on Judaism –

Writing

1. Write a diary entry imagining a day in the life of a child from another religion (use BBC Bitesize for info).
2. Create a fact file about a place of worship –
3. Write a comparison of two festivals (e.g., Christmas and Diwali) using DK Find Out –
4. Write your own “Golden Rule” after reading about different values –
5. Describe how symbols are used in religion after exploring BBC RE –

Listening

1. BBC School Radio assemblies on different themes –
2. Listen to Christian hymns for children –
3. Storynory Bible and myth stories –
<https://www.storynory.com/category/bible/>
4. Listen to podcasts for kids about world religions – (RE Podcast for Kids)
5. “Peace Out” kids’ mindfulness podcast (values and reflection) –

Watching

1. BBC Teach RE video clips –
2. Learn about Diwali (BBC Bitesize) –
3. Animated story of Rama and Sita (Hinduism) –
4. Introduction to Islam for kids (BBC Teach) –
5. Animated overview of Judaism (YouTube: Religion for Kids) –

PSHE

Here's the **PSHE & Citizenship Supercurriculum**:

Why Supercurriculum Matters in PSHE & Citizenship

Supercurriculum activities in PSHE & Citizenship help pupils develop life skills such as empathy, responsibility, and resilience. They encourage children to understand themselves, others, and the wider world, preparing them to be thoughtful, active, and respectful citizens.

Reading

1. BBC Bitesize PSHE and Citizenship –
2. Childline “Explore Feelings” pages – v
3. Newsround children’s news site –
4. YoungMinds wellbeing guides –
5. UNICEF “Rights of the Child” explained –

Writing

1. Keep a feelings diary: write one positive and one challenging moment each day.
2. Write a persuasive letter about protecting the environment after reading –
3. Create a poster showing children’s rights using UNICEF resources –
4. Write about a time you showed kindness or helped your community.
5. Draft a set of classroom rules that support respect, safety, and teamwork.

Listening

1. “Peace Out” kids’ mindfulness podcast –
2. “Brains On!” episode on emotions –
3. Childline “Calm Zone” audio activities –
4. “Wow in the World” podcast episode on kindness –
5. BBC School Radio citizenship themes –

Watching

1. BBC Bitesize PSHE & Citizenship videos –
2. Newsround special reports on children's issues –
3. Child-friendly explainer: UN Sustainable Development Goals –
4. Sesame Street clips on emotions and friendships –
5. TED-Ed video “How small acts of kindness can change the world” –
